

Professor Henry Brodaty on Ageing and Dementia

Recipient of the 2016 Ryman Prize, Professor Henry Brodaty, speaks candidly with Radio NZ on his decades of work in ageing and dementia. "The fastest growing sector of the population are the very old; the over 80, and they are set to quadruple by 2050. The numbers are quite staggering. Dementia in general is growing because of this ageing population and that is set to pass 135 million by 2050."
